

Special Education Budget Goals

as presented at 3/15 BOE workshop

- Maintain or augment Special Education services within the district.
- Establish a Special Education program that meets students needs through a multifaceted approach to interventions. Rather than the current one size fits all model.
- Creation of two de-escalation support rooms at the elementary buildings to provide emotional supports for all students
- Addition of specialized reading and resource room as a service at the elementary level
- Increase small groups for targeted interventions.
- Reduce reliance on out of district placements to address student need.
- Reduce reliance on consultant/ outside provider services.
